

M.Arslan

Full Stack Web Developer

Profile

Self-taught junior full-stack developer focused on building modern web applications with JavaScript, TypeScript, React, Next.js, Node.js, and databases. Built hands-on projects involving authentication, REST APIs, database-driven applications, cloud file storage, and AI integrations. Seeking an entry-level frontend, backend, or full-stack development opportunity to contribute to real-world projects and grow as a software developer.

Skills

Languages: JavaScript, TypeScript, HTML, CSS, Python

Frontend: React, Next.js, Responsive UI

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub

Projects

AI WEBSITE DESIGN REVIEW PLATFORM

Built a full-stack platform where users upload website designs for AI-powered feedback. Implemented authentication, cloud image storage, AI-generated reviews, database persistence, public posts, and community comments.

Next.js · TypeScript · MongoDB · Cloudinary · AI/LLM API

CLOUD STORAGE PLATFORM

Built a Google Drive-inspired file management application with authentication, file uploads, cloud storage, database persistence, and user-specific file management.

Next.js · TypeScript, NeonDB, Prisma

Education

ASSOCIATE DEGREE IN ARTS

Govt. Associate College Miani

2021 - 2023
